

GALACTIC WEATHER

4th Grade

DESCRIPTION

The PBS award winning Zula Patrol's zany characters discover all about weather, both on Earth and on other planets. Students will enjoy an introduction to the night sky, find the Big Dipper and a few seasonal constellations. Program will run for 2 hours.

30 MINUTES – PLANETARIUM SHOW

- *Wildest Weather in the Solar System*

30 MINUTES - LAB

- Explore temperature with thermometers; explore weather instruments used in predicting weather

30 MINUTES - GALLERY TIME

- Exploring and contrasting clouds on other planets and the Earth. Students will use the Millar Science in Motion gallery to discover ways to study clouds.

30 MINUTES
